SUMMARY

Computer Science graduate with experience in full-stack development, Python, and C++. Passionate about building scalable applications and exploring solutions. Open to software or cyber related roles in any industry and eager to contribute and grow in a dynamic team environment.

WORK EXPERIENCE

Freelance Web Developer, Perth, WA

October 2024 — Present

Using what I have learnt to benefit small businesses and creators

HiguVT and Jasmine Clarke (React app Frontend Only) – Developed modern, responsive portfolio websites for a Twitch streamer and a singer using React and Tailwind CSS. Focused on clean UI/UX, performance optimization, and mobile responsiveness to enhance their online presence.. Built with **React and TailwindCSS, Typescript**. higuvt.starlightvoyager.dev || jasmine.starlightvoyager.dev

JLMS – Developed a full-featured Learning Management System (LMS) for a school using React Next.js, Tailwind CSS, and PostgreSQL. Implemented role-based access for teachers and students, course management, and integrated Stripe for secure payment processing. Built with **NextJS, TailwindCSS, TypeScript, Stripe, NextAuth, PostgreSQL**

Other Projects

University Project (Full Stack Web Application) - Created a web app for ACICIS to help manage their student overseas scholarship program. The web app automatically determine if applied students qualify for the scholarship program. Also acts as a data analytics dashboard for different scholarship programs. Built with **Flask, Bootstrap and PostgreSQL**

Simple Finance Tracker (Full Stack) - A simple finance tracker where users can login using a code. Web App then displays income and expenses. Users can through this by date. Built with **NextJS, TailwindCSS, PostgreSQL**.

Password Manager (Ongoing) - Building my own password manager in C++. Integrated OpenSSL Libraries to provide encryption. Built with **C++, OpenSSL**.

Additional Experience

Certificates

Deep Neural Networks - <https://coursera.org/share/a460b75a07738c6c810aec096ad7e485>

Checkout Supervisor IGA | Perth. Northbridge

January 2021 — Present

Developed strong problem-solving, time management, and communication skills while efficiently managing customer transactions and ensuring high levels of satisfaction in a fast-paced retail environment. Proven ability to work under pressure, collaborate with teams, and adapt quickly.
